

HIGH SPEED CONNECTION

Policy Description:

The City of Corpus Christi owns one of the most advanced telecommunications infrastructures in the country. The City is served by a 144- sq. mi. mesh Wifi network, and has more than 3,500 strand miles of fiber-optic cabling installed. Use of these facilities may be available as an incentive under certain circumstances. We can trade facilities use for services and can engage in cost-sharing activities for new installations. We may have other options available so long as we do not violate state laws that prevent us from selling telecommunications services directly to the public or commercial concerns.

Eligibility Criteria:

This incentive may be available to any project after review and consideration from the City Council.

How to Apply:

For more information regarding this incentive policy please contact the MIS department at (361) 826-3735 or visit www.cctexas.com/MIS/.

Applicants seeking incentives must file an application for Economic Incentives before the request can be considered.

Please contact the City of Corpus Christi's Economic Development Office at (361) 826-3850 to request the application or visit www.cctexas.com/economicdevelopment to download the application.

The City shall not grant any incentive unless the business submits a full and complete application and provides additional information as may be requested. The accuracy of the information in the application is the sole responsibility of the applicant. Upon request the applicant shall provide supporting documentation. Any misstatement of or error in fact may render an application null and void and may cause for repeal of any ordinance adopted in reliance of said information.

If it is determined that the application meets these guidelines a full and financial programmatic review will be conducted. This review may be done by City Staff, an outside agency or consultant and will ensure conformance with these guidelines
