Corpus Christi Regional Economic Development Corporation:
Iain Vasey, President and Chief Executive Officer

Audio Equipment Company Announces Expansion into Corpus Christi

California- based audio equipment company Schiit Audio has announced it has purchased a building in Corpus Christi to expand its assembly and sales operations into Texas. The company will create approximately 20 full-time jobs.

“We are so pleased to welcome Jason and the Schiit Audio team to our region,” says Iain Vasey, President and CEO of the Corpus Christi Regional Economic Development Corporation. “This is an innovative, niche technology company who chose Corpus Christi to bring their fun but also highly acclaimed high end audio operations. With our great natural environment, our unique coastal lifestyle, low cost of living, short commute times, and welcoming community atmosphere, we will see an accelerated trend of California-based technology companies such as Schiit choosing to move here as an alternative location to other popular tech areas in Texas.”

“I am thrilled that Schiit Audio has chosen Corpus Christi to expand its highly acclaimed high-end audio operations. Our community has shown a desire to grow our tech and innovation community and this expansion signifies that Corpus Christi is a great destination to foster innovation,” says Peter Zaroni, Corpus Christi City Manager.

***About CCREDC:** Corpus Christi Regional Economic Development Corporation (CCREDC) is a not-for-profit company that receives public and private investment to carry out its mission of business recruitment and business retention for the Coastal Bend region.*

***About Schiit Audio:** Founded in June 2010 by Jason Stoddard and Mike Moffat, Schiit has grown into a leader in affordable high-end audio, with a wide range of products spanning DACs, amplifiers and preamplifiers, and headphone amplifiers, from \$49 to \$2449. More at schiit.com.*
